

MUNICIPALITY OF NAUJAN

OFFICE OF THE MUNICIPAL MAYOR
Naujan 5204, Oriental Mindoro, Philippines

05 May 2015

ENGR. ROLAND A. DE JESUS
Regional Director
Mines and Geosciences Bureau
Regional Office No. IVB (MIMAROPA)
7/F DENR Building, 1515 Roxas Boulevard,
Ermita, Manila

Dear **Director De Jesus**,

Greetings!

Sta. Clara International Corporation is presently undertaking its flagship project in Mindoro Island called Lower Catuiran Hydro Electric Power Plant in Barangay Malvar, this municipality. Present activities being undertaken are tunnelling and construction of weir according to our LGU Technical Working Group (TWG) for the project.

With the alarming reported cases of construction mishaps resulting to serious injuries and even deaths of miners and labourers occurring at the said firm, the undersigned most respectfully request your benevolent assistance to conduct ocular inspection, evaluation, recommendation and similar activities for the said project and to come up with a more composite standpoint for the safety and protection of its workers.

Attached herewith are copies of investigation and spot reports of incidents conducted by our local police personnel.

Thank you very much as we anticipate your favourable response to this request.

Very truly yours,

Atty. MARK N. MARCOS
Municipal Mayor
