Wack Wack Greenhills,  
Mandaluyong City 1550

Dear **Mr. Bellodo**,

Greetings!

This has reference to the reported cases of construction mishaps which resulted to grave physical injuries and even deaths of miners and labourers in your Lower Caluiran Hydro Electric Power Project which is now alarming in the side of the local government unit and concerned stakeholders.

While the municipal government greatly appreciates this worthwhile and very important project, it also has the responsibility to protect the safety and protection of its people from dangers and misfortune.

In the light of this concern, may we respectfully request from your end why the Municipal Government of Naujan should not revoke the Special Permit to Construct issued upon your firm as we like to hear from you regarding this matter.

Thank you very much for your cooperation and kind understanding.

Very truly yours,

  
**ANGEL M. NAVARRO**  
Municipal Administrator
