12 August 2014

Mr. ALBERTO C. GUANZON

Executive Vice President
Emerging Power
Suite 1603-B, West Tower
PSEC, Exchange Road
Ortigas Center, Pasig City

Dear Mr. Guanzon:

This has reference to your communication addressed to Hon. Alfonso V. Umali, Jr. dated 10 June 2014 subject of which is the implementation of Montelago Geothermal Project in the municipality of Naujan.

We would like to inform you that the Provincial Government of Oriental Mindoro (PGOM) interposes no objection to the Emerging Power's road rehabilitation works which include the rehabilitation of the segment of the provincial road from Sitio Macapili, Barangay Melgar B to Barangay Montelago. We also understand that no expenses will be shouldered by the PGOM in the grading and grubbing works, rehabilitation of damaged box culverts and gravel surfacing of said road segment.

On the other hand, may we be regularly notified of the project's status and accomplishment in the area. We are also advising your company to coordinate with the municipal government and concerned barangays for the project's implementation. The municipal government of Naujan is also in a position to assist you in securing the consent of landowners that may be affected by the project.

The company has assured that the Montelago geothermal project in Oriental Mindoro will be in line with the ambitious plans for geothermal development in the Philippines and as expected we are very much hopeful that this will be safe, clean, simple, reliable and environment-friendly.

Thank you.

Very truly yours,

NELSON B. MELGAR
Provincial Administrator
